Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

We describe the design and use of a personal digital library system, UpLib. The system consists of a full-text indexed repository accessed through an active agent via a Web interface. It is suitable for personal collections comprising tens of thousands of documents (including papers, books, photos, receipts, email, etc.), and provides for ease of document entry and access as well as high levels of security and privacy. Unlike many other systems of the sort, user access to the document collection ...

Keywords: document management, document repository, page image, personal digital library, thumbnail interfaces, web interfaces
